Tax, Tip, and Discount Word Problems

Solve each word problem using either method.

1. Your parents took your family out to dinner. Your parents wanted to give the waiter a 15% tip. If the total amount of the dinner was \$42.00, what should be paid to the waiter as a tip?
2. Toby buys a new MP3 player for a price of \$45.50. What is the total amount his credit card is charged if the sales tax is 7%?
3. John and his family went out to eat at their favorite restaurant. The bill for the food was \$65.00, and they left 20% tip for the server. What was the total cost of their meal (including tip)?
4. A \$250 Suede Jacket is on sale for 20% off. How much should you pay for the jacket?
5. A bracelet that regularly sells for \$44 is on sale for 25% off. Find the sale price of the bracelet.
